2	plagiarism. There's an overlap, of	2	PROFESSOR BUTLER: And in your
3	course, but copying is repeating	3	opinion, did Ms. Tshudy develop the idea
4	verbatim what somebody else has written.	4	into something more than Ms. Rogers had
5	Plagiarism, it seems to me, is also	5	or was it essentially the same thing?
6 7	taking something more, intellectually,	6 7	PROFESSOR GOULD: To get into that
8	from the overall product. And how much is original and how much is not, would	8	detail, I think the main idea, again, focusing on the Momenta case to then
9	be the question.	9	advocate for relying on trade secret
10	PROFESSOR GOULD: Well, as you can	10	protection instead of patent protection
11	see from the Turnitin program, a great	11	in the area of testing for FDA and
12	deal of copying, for sure. What I also	12	again, in the Rogers paper, she
13	tried to do was point out key passages	13	constantly talks about bioequivalency
14	that matched up, often word-for-word,	14	testing because that was the subject
15	that were analytical in nature and were	15	matter exactly the Momenta case.
16	conclusory in nature and were unique to	16	And so if you get into subtle
17	each paper, at least from what I knew.	17	differences, I noted Ms. Tshudy, maybe
18	And that's also, in the	18	every time, but I saw it, generally, she
19	conclusion, was impressive to me that	19	got rid of the word bioequivalency and
20	this was not just summarizing cases or	20	just talked about test methods. And
21	quoting cases, but what I would have	21	think about your question, is this a
22	regarded as an original idea, certainly	22	case where Ms. Tshudy was broadening
23	in Ms. Rogers' paper and I found that	23	this out beyond bioequivalency testing
24 25	same idea in Ms. Tshudy's paper. If	24 25	to other testing, so that may be a
23	that answers	23	difference.

And then Ms. Tshudy also Zoomed into the class for the last class when she presented her brief summary of her paper. And I thought her slide presentation was very good. She got a very high grade, I think 19 and a half out of 20 points.  And then as part of being remote, without the ability to Zoom in to every class, I had spoken ahead of time to Dean Gaudion and worked out a way for Ms. Tshudy to submit short reflections
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings This was not, again, from my knowledge of the scholarly work in this area, again, a lot was focused on manufacturing processes and preparing these biomolecules. So focusing on testing as an advantageous way to use trade secrets was new to me. And then to try and parse out differences, Ms. Tshudy's papers, just by the language, didn't just narrow it to bioequivalency, but went, if I remember Ms. Tshudy's paper often talks about testing methods testing. Testing, not just bioequivalency. So there's a difference. We're broadening out. PROFESSOR BUTLER: Okay. Thank you.  DEAN WILLIAMS: Only for Professor Gould, at this point. : What kind of student was Ms. Tshudy? PROFESSOR GOULD: First of all,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings participation because she was only well, the IT group here at Dickinson said that they would not have remote students Zoom in to every single class, but they would allow it for two classes, one presentation. Each student, as a sort of midterm project, does a slide presentation of their own topic, of their own choice.  And then Ms. Tshudy also Zoomed into the class for the last class when she presented her brief summary of her paper. And I thought her slide presentation was very good. She got a very high grade, I think 19 and a half out of 20 points.  And then as part of being remote, without the ability to Zoom in to every class, I had spoken ahead of time to Dean Gaudion and worked out a way for Ms. Tshudy to submit short reflections each class. Not for every one, I

2	But one thing that concerned me	2	FDA use.
3	when I was reading that is, what would	3	In fact, there's a whole large
4	FDA do if FDA brought this test	4	section in Ms. Rogers' note on FDA use
5	whether you're calling a bioequivalency	5	and citing the Ruckle House decision,
6	test or some other test for FDA	6	that was not in Ms. Tshudy's paper. And
7	submission, if FDA loved this test and	7	so in looking at Ms. Tshudy's paper and
8	wanted everyone to use it, which can	8	thinking about FDA use I think that
9	happen, that was one of my concerns that	9	explains that. That was part of my
10	that would destroy that strategy. And	10	curiosity.
11	so I wanted to see not only had	11	<u>PRŐFESSOR</u> BUTLER:
12	anyone used Momenta to advocate the	12	: Just a few contextual
13	strategy, not just summarize Momenta,	13	questions. You mentioned that
14	but to advocate the strategy.	14	Ms. Tshudy's presentation didn't
15	And if they had had they	15	necessarily conform with the paper
16	discussed the risk to the trade secret	16	itself. Common among students, or is it
17	of FDA using it and disclosing it and	17	generally a pretty strong correlation?
18	wanting everyone to do that. It's sort	18	PROFESSOR GOULD: Oh, the
19	of hard to go back and remember your	19	presentation in class?
20	thinking, but I remember that it's like,	20	: Yes.
21	wow, is anyone concerned? Because I'll	21	PROFESSOR GOULD: Oh, that can
22	also say in Ms. Rogers' note as well as	22	vary. Yeah. And I'll also say
23	in Ms. Tshud now, Ms. Tshudy's	23	Ms. Tshudy got full credit just four
24	paper, as long as you're doing this,	24	points got full credit for that short
25	didn't discuss much, as I recall about	25	presentation. The presentation, I just

2	DEAN WILLIAMS: I just want to ask	2	Ms. Tshudy's paper, for instance, that
3	you one further question and that is:	3	they were end notes rather than
4	How in your experience, have you seen	4	footnotes. I'm pretty liberal on that,
5	before students present the same	5	and that was not a problem in Ms.
6	analysis in the same order, using the	6	Tshudv's case.
7	same cases as a Law Review note?	7	: Sorry, I just want to
8	PROFESSOR GOULD: I don't recall	8	clarify one aspect of it. So whenever
9	anything. I don't, specifically, recall	9	you all talk about structure, are you
10	anything, especially in a unique topic	10	speaking just specifically about the
11 12	like this.	11 12	footnotes or the way that the references
13	PROFESSOR BUTLER: Yes. : I know it was	13	are, or are you speaking in regard to
13	0.000	14	how the paper should develop. PROFESSOR GOULD: At first and
15	mentioned that there's a sample paper that was given to demonstrate structure	15	now I see where you're going so
16	that was desired for the paper. Did her	16	there's nothing about the sort of
17	paper follow that same structure?	17	pedagogical structure about the sample
18	PROFESSOR GOULD: I feel her paper	18	paper that students have to comply with.
19	complied. Again, the sample paper	19	So that's first. And I think everyone
20	and it's one another professor at	20	understands that because I've got a lot
21	Dickinson provided as an example they	21	of good papers with a lot of different
22	use. I think it's fair to say that the	22	structures. That's not a problem.
23	students in my classes also, two years	23	And what I was talking about here,
24	ago, understood that I was very liberal,	24	in structure, is the substance of the
25	and I did not hold that against	25	structure. The idea of starting with

2	MS. TSHUDY: Okay. So just to	2	them, just to see the backing. And so
3	start before I, like, get into what I	3	the last one he went through was the
4	had prepared, like, as a response, I	4	viability trade secrets being a viable
5	actually found the hearing so far very	5	alternative to patents, for example.
6	enlightening. And I honestly had never	6	And I didn't want to necessarily take
7	assumed any ill will or mal-intent. But	7	the time right now to hook up my
8	I really think that I'm going to be able	8	computer, but if you read what I just
9	to show that this is just, like, a	9	get straight from Google, there is
10	complete misunderstanding, in a way.	10	even from the beginning, an entire paper
11	I really would have hoped I	11	on trade secrets as a viable alternative
12		12	for patent law.
13	guess I really would have hoped that	13	
14	more research would have been done,	14	And so I hope I'll go through
15	especially, you know, after having a	15	everything, but I just wanted to give an
16	short time, you know, at least just a	16	example that if you really do take these
17	little time, to discuss it with Dean	17	phrases or, you know, things, like,
18	Williams about how much of this is very	18	borrow and stuff and actually like
	generalized information. So I'm hoping	19	search, that I would actually, kind of,
19	I can show that to you but just to	20	in part, suspect not necessarily
20	make sure that it doesn't necessarily	21	suspect the note of, you know,
21 22	come off or get interrupted.	22	pulling plagiarizing from other
	As Professor Gould was going		people's work. But at least I feel like
23	through particular phrases that he found	23	from what I've even seen from hers, it
24 25	were complete new and original ideas. I	24 25	kind of generalizes the same sort of
25	just went into Google and just typed in	23	resources that I was even using for this

And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have
2 3 4 5 6 7 8 9 10 11	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I	2 3 4 5 6 7 8 9 10 11 12	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But
2 3 4 5 6 7 8 9 10 11 12 13	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short
2 3 4 5 6 7 8 9 10 11 12 13	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony. DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up.	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony. DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because I'd rather prefer that, and then I can	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but ultimately if you need an answer, it's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because I'd rather prefer that, and then I can address things that were said, if that's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but ultimately if you need an answer, it's not something I can do.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because I'd rather prefer that, and then I can address things that were said, if that's okay with everyone. So I did put a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but ultimately if you need an answer, it's not something I can do. But I'll just read my testimony
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because I'd rather prefer that, and then I can address things that were said, if that's okay with everyone. So I did put a quick note, just so that everyone	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but ultimately if you need an answer, it's not something I can do.  But I'll just read my testimony for now. And the only reason I'm
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because I'd rather prefer that, and then I can address things that were said, if that's okay with everyone. So I did put a quick note, just so that everyone understands, that I would have	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but ultimately if you need an answer, it's not something I can do.  But I'll just read my testimony for now. And the only reason I'm reading it is because there's a lot to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because I'd rather prefer that, and then I can address things that were said, if that's okay with everyone. So I did put a quick note, just so that everyone understands, that I would have definitely preferred, you know, just to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but ultimately if you need an answer, it's not something I can do.  But I'll just read my testimony for now. And the only reason I'm reading it is because there's a lot to grasp, so I just think it's easier if
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings information, which I think is, kind of, really interesting.  DEAN WILLIAMS: Ms. Tshudy, we can certainly put your computer MS. TSHUDY: Well, I was going to go and just do my testimony.  DEAN WILLIAMS: Okay. MS. TSHUDY: And then I can, like, show stuff too DEAN WILLIAMS: Sure. MS. TSHUDY: as desired. I just don't want to bore you with just like a Word document, straight up. First, I just wanted to give just my initial response explanation, because I'd rather prefer that, and then I can address things that were said, if that's okay with everyone. So I did put a quick note, just so that everyone understands, that I would have definitely preferred, you know, just to resolve this by discussion and agreement	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings again, making the agreement would have required me to say that I knowingly or intentionally plagiarized.  And as you'll see, that's the only reason why we won't come to agreement, because I think with being able to explain everything and tell them everything that happened and give them all these different papers that are incredibly similar that this would have been resolved just from discussion. But the timetable I was given was too short for me really to do that. So Dean Williams wanted an answer. And I said, well, I'd love to discuss, but ultimately if you need an answer, it's not something I can do.  But I'll just read my testimony for now. And the only reason I'm reading it is because there's a lot to grasp, so I just think it's easier if it's organized so I don't miss anything.

2 3 4 5	Proceedings initially. Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then	2 3 4 5	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is
2 3 4 5 6	Proceedings initially. Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking	2 3 4 5 6	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the
2 3 4 5 6 7	Proceedings initially. Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was	2 3 4 5 6 7	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into
2 3 4 5 6 7 8	Proceedings initially. Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.	2 3 4 5 6 7 8	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty
2 3 4 5 6 7 8 9	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met	2 3 4 5 6 7 8 9	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed.
2 3 4 5 6 7 8 9	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a	2 3 4 5 6 7 8 9	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me
2 3 4 5 6 7 8 9 10	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With	2 3 4 5 6 7 8 9 10	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look
2 3 4 5 6 7 8 9 10 11	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan,	2 3 4 5 6 7 8 9 10 11	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I
2 3 4 5 6 7 8 9 10 11 12	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as	2 3 4 5 6 7 8 9 10 11 12	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources
2 3 4 5 6 7 8 9 10 11 12 13	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was because he had mentioned that you can
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me for the purpose of soliciting my input	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was because he had mentioned that you can include different cases and stuff if you
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me for the purpose of soliciting my input on how your research project is going.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was because he had mentioned that you can include different cases and stuff if you think it might pertain later.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me for the purpose of soliciting my input on how your research plans are two or	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was because he had mentioned that you can include different cases and stuff if you think it might pertain later.  And the other thing was that I was
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me for the purpose of soliciting my input on how your research project is going. Typically research plans are two or three pages and provide a rough initial	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was because he had mentioned that you can include different cases and stuff if you think it might pertain later.  And the other thing was that I was currently living the semester out of my
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me for the purpose of soliciting my input on how your research project is going. Typically research plans are two or three pages and provide a rough initial outline of the eventual paper as well as	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was because he had mentioned that you can include different cases and stuff if you think it might pertain later.  And the other thing was that I was currently living the semester out of my car because I was still searching for my
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me for the purpose of soliciting my input on how your research project is going. Typically research plans are two or three pages and provide a rough initial outline of the eventual paper as well as identification of issues, research	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. And it is pretty helter-skelter, not very well-developed. But again, based on what he described me he wanted, it applied. And if you look at the outline, you can see that I copied and pasted different sources beneath it, for two reasons, one was because he had mentioned that you can include different cases and stuff if you think it might pertain later.  And the other thing was that I was currently living the semester out of my car because I was still searching for my other pet, so I only had periodic access
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings initially.  Now, I've corrected that in my knowledge, but to me I thought that it was originally sent from him. And then it was only with reminders of looking into this that I realized that that was not the case.  On October 20th, I believe, we met again and Professor Gould sent me a responsive email. He said, With specific regard to your research plan, you have a good deal of flexibility as these plans are ungraded and mainly for you to present to me to present to me for the purpose of soliciting my input on how your research project is going. Typically research plans are two or three pages and provide a rough initial outline of the eventual paper as well as identification of issues, research strategies and some important	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings penalty.  And so this goes to so then the next time that we really discussed then was the actual outline, which is what he was just describing. And so the outline, I believe, was provided into evidence. 2	rarely had WiFi or Internet connection,	2	from discovery. And I think that's
3	it was literally there in case what we	3 4	probably one of the reasons that I got
4	went over on the outline made it worth		such a good grade on my presentation was
5	reading.	5 6	because I actually concentrated on what
6	So at that point at that point		he really liked. So I feel like I
7	as you'll actually learn, I never	7 8	think other students generally do that
8	actually read through the entirety of		if you hear a professor really push for
9 10	the note beyond reading, maybe, the	9	something.
11	introduction and I don't even think I	11	So I just wanted to repeat that I
12	looked at the structure necessarily.	12	did not read more than, maybe, the first
13	And then I did look at the resources,	13	paragraph of the note before copying
14	but I'll explain that later. But I	14	yeah, so I discovered the note right
15	copied it and other resources as	15	before a meeting and that's why it is on
16	potential aids so that I could read them	16	my outline. So I literally did not read
17	if I got around to it since the topic was really broad.	17	more than the first paragraph of the
18	I actually mentioned this to	18	note before copying it over and I never actually read through the thing or read
19	Professor Gould, that I was more	19	
20	interested in a trade secret versus	20	even, I would say, significant amount of the entire note.
21		21	
22	patent debacle. But during this meeting	22	But I did know of the note. And again, I copied this over directly to
23	and the notes that you can see from the	23	the outline that I shared with Professor
24	outline, he really seemed to emphasize	24	
25	his desire to hear about these emerging	25	Gould, so he knew from the beginning
23	issues in trade secret litigation coming	23	that I knew of this note. I copied with

2	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean	2 3 4 5	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in
2 3 4	Proceedings other resources as well, but it was located in the bottom of the outline.	2 3 4	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've
2 3 4 5	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached	2 3 4 5 6 7	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason
2 3 4 5 6	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other	2 3 4 5 6	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that
2 3 4 5 6 7	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I	2 3 4 5 6 7	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going
2 3 4 5 6 7 8	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor	2 3 4 5 6 7 8	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew
2 3 4 5 6 7 8 9 10	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later. And this was all based on the fact that his description of what the outline	2 3 4 5 6 7 8 9 10	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I
2 3 4 5 6 7 8 9 10 11	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include	2 3 4 5 6 7 8 9 10 11	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I
2 3 4 5 6 7 8 9 10 11 12 13	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later. And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually
2 3 4 5 6 7 8 9 10 11 12 13 14	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I	2 3 4 5 6 7 8 9 10 11 12 13 14	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was there if he wanted to and if you wanted
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because there's like a straight research paper.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was there if he wanted to and if you wanted to review it at any point because it was
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because there's like a straight research paper. At most, even when comparing the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was there if he wanted to and if you wanted to review it at any point because it was there with a bunch of other things.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because there's like a straight research paper.  At most, even when comparing the two, after hearing about the allegation,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was there if he wanted to and if you wanted to review it at any point because it was there with a bunch of other things.  We mostly concentrated on the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because there's like a straight research paper.  At most, even when comparing the two, after hearing about the allegation, I wanted to sort of wait to really look	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was there if he wanted to and if you wanted to review it at any point because it was there with a bunch of other things.  We mostly concentrated on the actual outline that I presented, which
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because there's like a straight research paper.  At most, even when comparing the two, after hearing about the allegation, I wanted to sort of wait to really look in depth because I was still	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was there if he wanted to and if you wanted to review it at any point because it was there with a bunch of other things.  We mostly concentrated on the actual outline that I presented, which was like Roman numerals and everything.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because there's like a straight research paper.  At most, even when comparing the two, after hearing about the allegation, I wanted to sort of wait to really look in depth because I was still contemplating, you know, still looking	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. So that's the only reason that I was kind of hesitating like going through each exact detail because I knew that I could.  And so as I said, the note was at the bottom of my outline, even though I did not know that before. And I Professor Gould and I never actually went below my outline for discussion. So we didn't talk about it. But it was there if he wanted to and if you wanted to review it at any point because it was there with a bunch of other things.  We mostly concentrated on the actual outline that I presented, which was like Roman numerals and everything. So I think, he kind of just dismissed
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings other resources as well, but it was located in the bottom of the outline. And this was mentioned as well by Dean Williams that it was literally attached at the bottom of the outline with other excerpts and ideas that I thought that I could possibly mention to Professor Gould later.  And this was all based on the fact that his description of what the outline could be mentioned that you can include that stuff, because obviously I wouldn't to try to include that and pretend that it's part of my outline at all. But I think it was pretty obvious because there's like a straight research paper.  At most, even when comparing the two, after hearing about the allegation, I wanted to sort of wait to really look in depth because I was still contemplating, you know, still looking into the polygraph option because I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings With polygraph, you can't make yourself remember iffy so I can't say that I've never read it if I've read it in reference to an allegation, if that makes sense. 1	Proceedings	1	Proceedings
2	So this meeting did change my	2	you are just using them to get general
3	approach drastically. So even with this	3	background information and find sources
4	initial outline that even had that	4	that could be primary sources that could
5	copied at the bottom, I actually decided	5	be pertinent to the area looking at,
6	to start a completely new outline, so	6	that citation isn't required.
7	I didn't delete my original outline.	7	So knowing we had similar aspects,
8	But, I can show you, I have a second	8	I would have wanted to include the note
9	outline that I did just because we made	9	in my resources in my resources just
10	such drastic changes to what I was going	10	to cover my bases even though I never
11	to talk about. So even though I had her	11	actually read it and because, as you'll
12	note on that outline, I never really got	12	hear, the one thing I do admit to using
13	the chance to read it and look into it	13	or harnessing from secondary sources is
14	because I started a separate one.	14	their list of resources.
15	And so the next step that I went	15	But again, I did this with
16	into was scouring for resources. And in	16	multitudes of papers. It's just a good
17	first year legal analysis and writing,	17	way to get primary sources, which I was
18	we faced this battle of when to cite	18	struggling with at the beginning because
19	primary or secondary resources. It	19	I didn't want to make the second half of
20	resulted in citing secondary, if you are	20	my paper be too business minded like he
21	including what they specifically pulled	21	had warned me about, so I needed
22	from the case or the analysis, that is	22	resources that I knew were, like, at
23	not like a general headnote or a common	23	least generally biotech and
24	quote or if you only had it or heard	24	pharmaceutical related. And so that is
25	of it because of their paper. But if	25	probably a reason that some of the

1	Proceedings	1	Proceedings
2	Proceedings resources come are similar.	2	Proceedings find any area that could we didn't
2 3	Proceedings resources come are similar. So I had asked him, on that same	2 3	Proceedings find any area that could we didn't find anything that was unique to them or
2 3 4	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the	2 3 4	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to
2 3 4 5	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper	2 3 4 5	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.
2 3 4 5 6	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use	2 3 4 5 6	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them. Especially because, again, I
2 3 4 5 6 7	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option.	2 3 4 5 6 7	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them. Especially because, again, I hadn't read this paper. I was just
2 3 4 5 6 7 8	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement,	2 3 4 5 6 7 8	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them. Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it
2 3 4 5 6 7 8 9	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data.	2 3 4 5 6 7 8 9	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had
2 3 4 5 6 7 8 9	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages	2 3 4 5 6 7 8 9	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I
2 3 4 5 6 7 8 9 10	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20	2 3 4 5 6 7 8 9 10 11	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the
2 3 4 5 6 7 8 9 10 11	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this	2 3 4 5 6 7 8 9 10 11	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an
2 3 4 5 6 7 8 9 10 11 12 13	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't
2 3 4 5 6 7 8 9 10 11 12 13 14	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option,	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings resources come are similar. So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.	2 3 4 5 6 7 8 9 10 11 12 13 14	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts for citations. And if you look through	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our resources things that could be directly
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts for citations. And if you look through my paper, I have citations for almost	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our resources things that could be directly tied into or at least subscripted to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts for citations. And if you look through my paper, I have citations for almost nearly every single sentence, so there	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our resources things that could be directly tied into or at least subscripted to like a direct sentence in our document
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts for citations. And if you look through my paper, I have citations for almost nearly every single sentence, so there wasn't any I had even looked and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our resources things that could be directly tied into or at least subscripted to like a direct sentence in our document instead of just resources that, you
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts for citations. And if you look through my paper, I have citations for almost nearly every single sentence, so there wasn't any I had even looked and discussed with friends and people about	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our resources things that could be directly tied into or at least subscripted to like a direct sentence in our document instead of just resources that, you know, generally have similarities. And
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts for citations. And if you look through my paper, I have citations for almost nearly every single sentence, so there wasn't any I had even looked and discussed with friends and people about if there was anything in my paper that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our resources things that could be directly tied into or at least subscripted to like a direct sentence in our document instead of just resources that, you know, generally have similarities. And so he responded to follow the sample.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings resources come are similar.  So I had asked him, on that same date, if we're supposed to follow the sample paper. And on the sample paper it uses subscripts so you can use footnotes and he gave that as an option. And so, again, it wasn't a requirement, it was an option for background data. But he didn't want any of our 20 pages to be committed any of our 20 required pages to be committed to this background data, so it was just whether we wanted to include it as an option, that was allowed.  But the actual structure of the sample paper was that you use subscripts for citations. And if you look through my paper, I have citations for almost nearly every single sentence, so there wasn't any I had even looked and discussed with friends and people about	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings find any area that could we didn't find anything that was unique to them or any area that we could subscript it to being specifically found from them.  Especially because, again, I hadn't read this paper. I was just trying to figure out a way to work it into the subscript resourcing that I had never done before. Because normally I just do resources inputted into the paper, but then you can also have an additional resource list that doesn't tie to the subscripts.  So I had asked him specifically if we're supposed to copy the structure of the sample paper and include in our resources things that could be directly tied into or at least subscripted to like a direct sentence in our document instead of just resources that, you know, generally have similarities. And

2 3 4 5 6 7 8 9 10	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same	2 3 4 5 6 7 8 9 10 11	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.
2 3 4 5 6 7 8 9 10 11	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like,	2 3 4 5 6 7 8 9 10 11	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already
2 3 4 5 6 7 8 9 10 11 12 13	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things,	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I
2 3 4 5 6 7 8 9 10 11 12 13 14	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized	2 3 4 5 6 7 8 9 10 11 12 13	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.  And so I did bring a witness and	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I took from the bottom of the page. Again not reading any of its analysis of it.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I took from the bottom of the page. Again
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.  And so I did bring a witness and that's one of the things that they can attest to. As I said, I asked opinions	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I took from the bottom of the page. Again not reading any of its analysis of it. But this was all added to one big resource document that I compile and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.  And so I did bring a witness and that's one of the things that they can attest to. As I said, I asked opinions of others regarding this issue and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I took from the bottom of the page. Again not reading any of its analysis of it. But this was all added to one big resource document that I compile and then I go through each case
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.  And so I did bring a witness and that's one of the things that they can attest to. As I said, I asked opinions of others regarding this issue and others when it came to citations and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I took from the bottom of the page. Again not reading any of its analysis of it. But this was all added to one big resource document that I compile and then I go through each case individually. And then I just delete
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me. 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.  And so I did bring a witness and that's one of the things that they can attest to. As I said, I asked opinions of others regarding this issue and others when it came to citations and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I took from the bottom of the page. Again not reading any of its analysis of it. But this was all added to one big resource document that I compile and then I go through each case individually. And then I just delete resources if I find they don't pertain
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.  And so I did bring a witness and that's one of the things that they can attest to. As I said, I asked opinions of others regarding this issue and others when it came to citations and they felt that the precautions I took would definitely be enough when looking	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Proceedings generalized knowledge and not original ideas.  I honestly thought that I would get a bad grade because even though I used biotech and pharma sources, my research revealed that even though this topic appears emerging, it is widely overstudied now and that Professor Gould would think that I was just adding it to meet the minimum pages required.  The only reason that this note would be any closer, as I already mentioned, I did use some sources that I took from the bottom of the page. Again not reading any of its analysis of it. But this was all added to one big resource document that I compile and then I go through each case individually. And then I just delete resources if I find they don't pertain to what I want to write about. So it's,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings of which is also allowable as seen in the syllabus. If you saw that distinction, we're allowed to, kind of, like, discuss things like this just to make sure that I wasn't over assuming the generalizations that were given to me.  So I'd show people, I'd go through like five or six or eight different papers that were organized in the same way and pretty much had the same things, just different cases and they were like, yeah, that seems like generalized information for the area.  And so I did bring a witness and that's one of the things that they can attest to. As I said, I asked opinions of others regarding this issue and others when it came to citations and they felt that the precautions I took would definitely be enough when looking at the multitude of articles that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Proceedings generalized knowledge and not original ideas.
